

Raising the Standard of Air Quality for Every Space

Specializing in world-leading biodefense indoor air protection systems

Breathe Easier with IVP

IVP's family of units are scientifically proven to instantaneously destroy SARS-CoV-2, the virus that causes COVID-19 (99.999%), and other airborne pathogens, in a single pass without affecting the ambient air, giving all businesses and spaces the ability to open safely.

The Venue Mobile Unit

Our most powerful unit built for large commercial spaces & facilities, delivering the cleanest, virus-free indoor anywhere.

Enhanced HVAC Filtration

Easily retrofitted to existing HVAC systems or forward fitted to new construction, providing defense against COVID-19 and other viruses.

The Room Mobile Unit

Designed for healthcare, office and residential spaces, providing clean air so you can breathe with confidence.

The Travel Mobile Unit

Small but powerful personal, portable air purifier that is designed for travel, offices, or in-person meetings.

2020 American Society of Mechanical Engineers Award

2020 Newsmaker of the Year
